

What can I do at home?

Homework

Please continue to practice independence at home; handwashing, putting on coats and eating whole fruits.

Don't forget to join our Facebook group

Havannah Pre-school 2021

This group is a really useful way for me to share key information and for you to contact me if you have any questions.

Opening & Closing Times

9-9.10 am

3- 3:10pm

We have been busy bees

- We have been working hard this week starting to think about the weather and types of weather- we have lots of weather to look at this week!
- In funky finger activities we have used tweezers picking up different sized beads and balls.
- In our Makaton sessions we have looked at Makaton signs linked to the weather as well as the signs to match some of our RWI sounds.
- In our STEM (Science, technology, engineering and maths) we have looked at the water cycle and rain.
- In RWI we have reviewed our previous sounds and learnt h h h horse and rrrrobot (stretchy).

Next week

- We will spend the week learning about the weather as part of our work looking at the world and change. We will learn the Makaton signs to describe the weather and learn that we live on an island called the United Kingdom.
- In our work towards the Christopher Winter project we will be looking at friendships.
- RWI- j j j jack in the box and vvvvvulture
- Maths- ordering numbers and recognising missing numbers
PD - circles and arches
- STEM Activities- The water cycle and rain_

Notices

- Don't forget to send in a piece of fruit and drink (in a named bag) everyday!
- Please ensure that your child has sun cream on and hats ready for hot days and rain coats for rainy days.
- Please make sure that you have a complete set of spare clothes (named) for your child each day, accidents happen and pants are in very short supply!
